

Hi, I'm Vlad Bugaev! A presentations specialist with roots in finance and advertising.

Turning big ideas into clear, impactful slides has been a passion for over 10 years, from outlining the flow and crafting the text to polishing the design.

Comprehensive PowerPoint templates are also part of my toolkit.

10 years 450 projects

How Work is Done

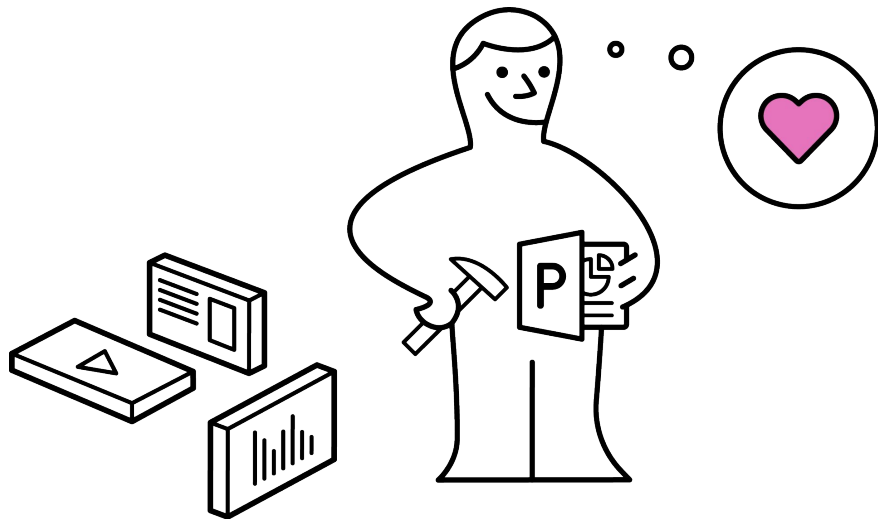

You fill in the brief →

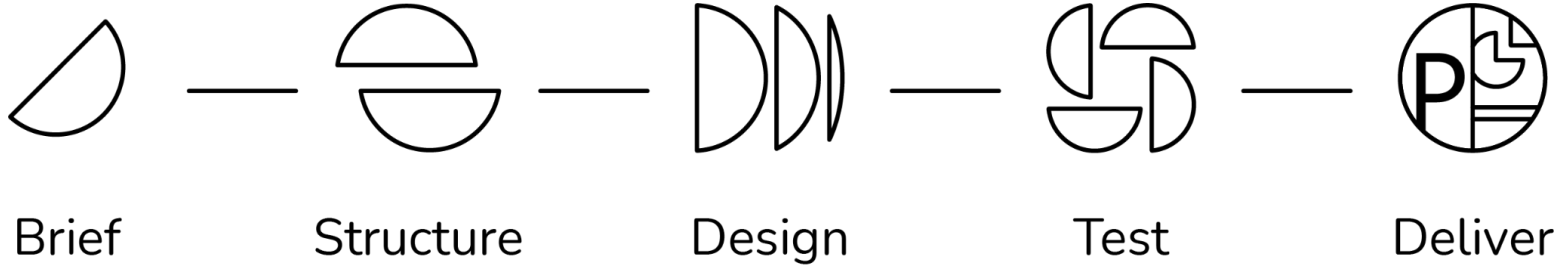

I do a rough structure and design concept, to see if we're on the right track.

Once everything is fine, I do the rest of the project.

We do accessibility and compatibility tests to be sure of the contrast, fonts, etc.

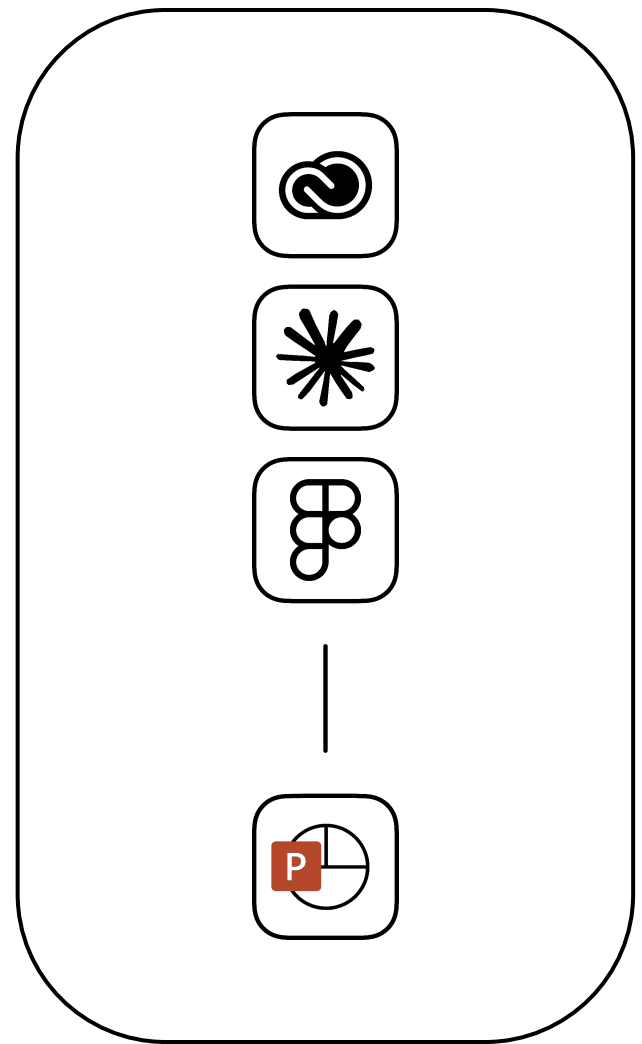

Deliver and repeat.

It's all about PowerPoint

In my work I use Adobe CC, Figma, all sorts of different services and AI. But the final result, including animations, are editable files in *.pptx format.

What about AI?

Pitch
decks

Gist functions as a shopping-focused Instagram without sponsored posts. I built this deck around the established brand identity.

#design #layout

Full case study →

The logo's irregular trapezoid shows up across various slides.

GIST

Our vision: Creating the purchase graph

A new social network

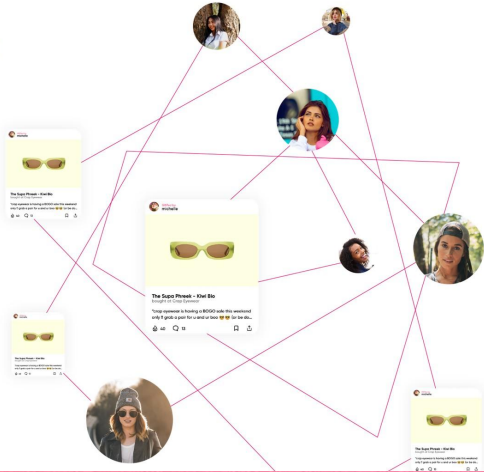

Enable users to build social identity over shopping history and product affinity.

A new way to shop

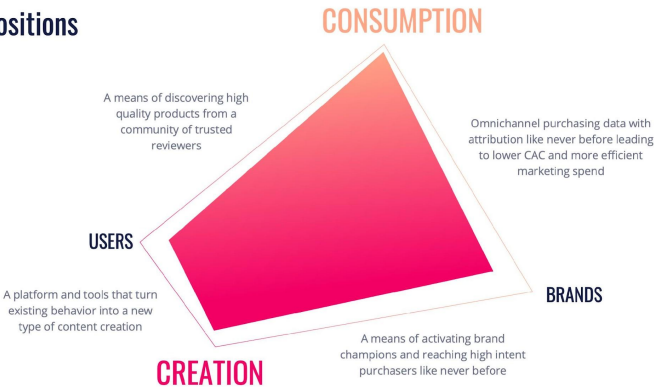

Combine the shared experience and product discovery of retail shopping with the convenience of ecommerce.

A new way to convert

Enable brands to reduce CAC and empower brand champions by leveraging our perfect attribution

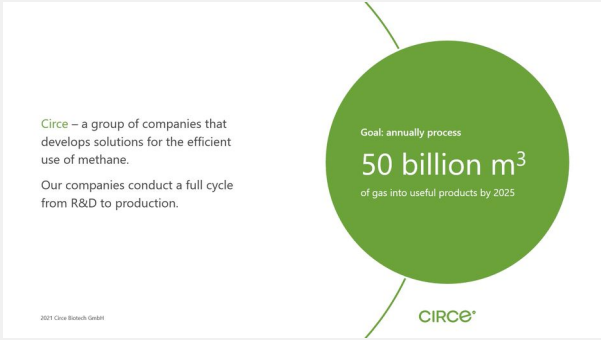

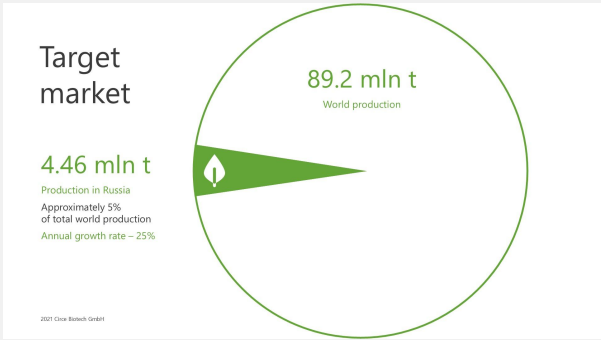

Symbiotic value propositions

A bio-recycling startup focused on gas emissions. The aesthetic uses circular forms to reflect efficiency, warmth, scale, and circularity.

Business branches

Protein: feed & food

Modern feed base

The cost of the end products reduction

Improving the quality of the end product

An effective response to the challenge of food supplies to a rapidly growing population

Methanol

Low power plants for methanol synthesis

Simplify solutions for the oil and gas industry

Reduced air emissions and environmental burden

Liquefied natural gas

Modern fuel

Improving gas processing efficiency

Reduction in pipeline construction costs

Biodegradable polymers

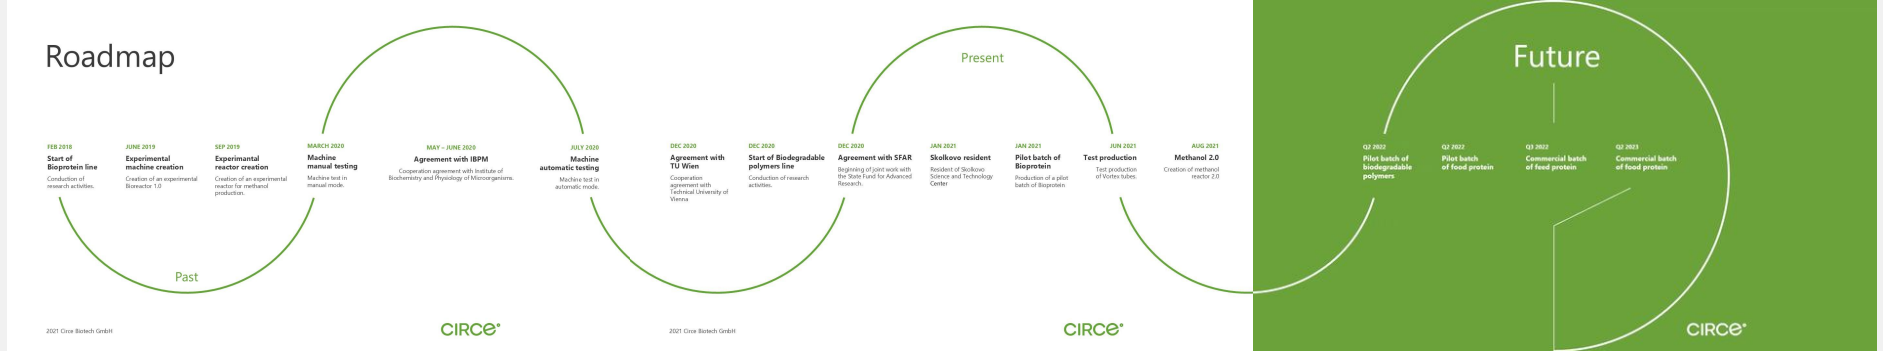

Environmental friendliness and contribution to the future of the planet

Modern materials for the production of the end products

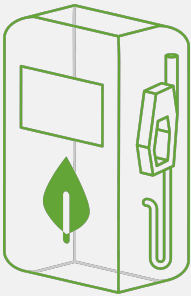

CIRCE®

2021 Circe Biotech GmbH

Roadmap across three slides:
past, present, and future.

Thematic images,
illustrations, and icons.

Methanol

Proteins: feed &
food products

Biodegradable polymers

Liquefied natural gas

Presentation Templates

All of my templates Include:

- Full utilisation of PowerPoint's Slide Master features
- Reliable, consistent template performance thoroughly tested across all major operating systems
- Well-considered typographic hierarchy to save you time and effort
- Custom placeholders for charts and images
- XML tweaks for bespoke table and text-box styles (if required)
- Sleek, modern built-in animations and transitions

Neurodata: a high-fidelity template designed for emotion and behavior recognition. It features fluid, built-in animations alongside fully integrated dark and light themes.

RAPIDO SERIE ORO

It is in our DNA

We draw from the history of MV Agusta Motor S.p.A to design and shape a new era entering the sector of e-mobility as a brand extension of MV Agusta.

We apply MV Agusta DNA to e-mobility by designing and manufacturing E-Bikes and e-scooters distinguished by style and quality.

We aim at making every riding as a lifestyle experience, focusing both on urban commuting, leisure, as well as off-road experiences.

4

Where we come from

1907
Foundation of MV Agusta

1945-1946
Conversion into motorcycle sector

1950-1980
Positioning as a racing legend

1992
Acquisition of the MV Agusta trademark by Castiglioni Group.

2008
Entrance of Harley-Davidson to cover sport bike market

2010
Acquisition by Castiglioni from Harley-Davidson due to its financial crisis

2014
Mercedes-AMG GmbH acquires 25% interest in MV Agusta Motor S.p.A.

2017
Company restructuring with Art of Mobility

2019
Full ownership of MV Agusta by Art of Mobility

2020
E-MV Agusta was born under the ownership of Art of Mobility

2021
E-MV Agusta S.r.l. is created as MV Agusta E-Mobility division

2022
KTM acquires 25.1% of MV Agusta Motor S.p.A and becomes a strong strategic partner

E-scooter

Rapido Serie Oro is an e-scooter inspired by the most iconic MV Agusta motorcycles to shape the future of e-mobility with design excellence and cutting-edge technology.

Main features:

- 500W Motor
- Double disk brakes
- Magnesium frame
- Display 3.96"
- NFC key

- Display 3.96"
- Speed indication
 - Battery charge level
 - Total and partial kilometers
 - Lights
 - Maps
 - Instant power

E-scooter

Specific details are an e-scooter inspired by the most iconic/mo Agusta motorbike to make the future of e-mobility with design excellence and cutting-edge technology.

High Features:

- 800W Motor
- Innovative disc brakes
- High-gain frame
- Integrated 36V
- NFC key

Specific details are:

- Digital display
- Speed controller
- Battery charge level
- Motor and planetary components
- Wheels
- Brake pedal
- Digital throttle

DCAPM+

Conceptual Architecture and Platform Development Phases

© 2024 DCAPM SOLUTIONS LLC

Implementing fundamental principles of modern cybersecurity

Least Privileges
The principle of granting users only the minimum privileges necessary to perform their work tasks.

Data-Centric Security
Protection of stored data, including its discovery and categorization, and the construction of behavioural models.

Zero Trust
Dynamic reassessment of user or device access rights each time they request access to any resource.

People-Centric Security
Proactive detection of violations, enhancement of individual accountability among staff, and transparent activity auditing and control.

© 2024 DCAPM SOLUTIONS LLC

Phase 1

Development of the core functionality of the software product.

Development of the primary methodology for working in the core functionality of the modules for product managers.

Gathering initial requirements for the current and next phases of product development.
